

Happenings on the Pacific Slope.

Drawn To Come True.

TO GIRDLE THE GLOBE.

Marconi Company Announces Extensive Plans.

Wireless Stations to Cross Pacific Ocean.

Will Compete With Cable in New Territory.

San Francisco Bureau of the Times, July 9.—(Exclusive Dispatch.) Behind the bare announcement that the Marconi Wireless Company immediately will start the construction of the two largest wireless stations in the world in San Francisco, lies one of the greatest combinations of capital and industrial resources of the age.

The further definite and authentic information that an immense system of wireless stations, extending across the Pacific from San Francisco to the Philippines, with high-power transmitting stations at Honolulu and on the coast of China, means that the Marconi wireless system will enter into active and determined competition with the Pacific Cable.

It also has been announced that the Marconi company will put in a 10-kilowatt station at Panama.

When the stations in San Francisco and the one in Manila are completed, direct communication between the two points, a distance of 4982 miles, will be sustained day and night without interruption.

The Pacific Cable chain of power wireless stations is part of the Marconi system now under construction to girdle the globe with wireless waves.

Representatives of the Marconi company now are in Honolulu and at the different points in Asia and the Philippines, negotiating for suitable sites of land and making other arrangements for the Pacific system.

The United Wireless system, which has been absorbed by the Marconi Wireless Telegraph Company, will be maintained.

The former company has nine stations along the coast of California, as well as working stations at Seattle and Friday Harbor, and at Astoria and Portland, Ore.

At Seattle, San Pedro, San Luis Obispo and Avalon, Cal.

The new station building on the western coast contemplated at 10-kilowatt station at Belmar, N. J., and wireless waves directly across the Atlantic to London, through the air.

At San Francisco, Honolulu, Chicago and Panama, any ship in the world can be reached almost instantly.

The Federal Wireless Company, which has a limited number of stations on the Pacific Coast, is in the move of the Marconi company, making preparations to construct a 10-kilowatt station somewhere in the immediate vicinity of San Francisco and increase its service greatly on this coast.

WIRELESS UPON REASON.

Wire of Missionary to China Ends Journey in San Francisco.

San Francisco, July 9.—(By A. P. Night Wire to the Times.) When Mrs. Emma Kevill sank to rest in a room in a sanatorium here today she ended a 10,000-mile journey to her native land, so fraught with horror that it seemed her reason was lost.

Mrs. Kevill was a passenger with her husband, E. M. Kevill, a mission to China, and three children, when they were shipwrecked.

Mrs. Kevill, who had been depressed by the death of her infant son, was compelled to strap her child to the side of the ship, and she was found by the crew of the ship.

Mrs. Kevill was in a critical condition when she was found, and she was taken to the sanatorium.

Mrs. Kevill's condition was such that she was unable to speak, and she was taken to the sanatorium.

Mrs. Kevill's condition was such that she was unable to speak, and she was taken to the sanatorium.

IN TOW OF THE OFFICERS.

Laupah With Contraband Chinese Reached San Francisco.

San Francisco, July 9.—The launch Three C's, with ten contraband Chinese on board, was brought into port tonight in charge of immigration officers.

The launch was taken into Los Angeles Harbor, while the Three C's was brought north in the hope that the receivers due to meet the Chinese might also be caught, but they had been alerted by the capture of the launch, which was reported in the newspapers, and kept away.

Green-Eyed.

ACCUSATIONS UPSET AUTHOR.

JOHN D. HOWE SEEKS DIVORCE AFTER THIRTY-TWO YEARS.

Says Wife Charged Him With Spending Too Much Time With Other Women and That Is Why He Hated Her.

San Francisco Bureau of the Times, July 9.—(Exclusive Dispatch.) Unwarranted jealousy of his wife and her recurrent charges that she spent her time in the company of other women, has so preyed upon the mind of John D. Howe, author and short-story writer, that it has impeded his literary success.

On this ground he asked the Superior Court today to grant him a divorce from Annie S. Howe, whom he married at Leavenworth, Kan., thirty-two years ago, and who is the mother of his three children, all past the age of majority.

In his complaint he says: "Plaintiff has engaged extensively in literary work, particularly short-story writing, for the purpose of gaining a better living for himself and family, but because of the inordinate jealousy of his wife and his consequent embarrassment and worry and the mental anxiety she has caused him to labor under, he has not been able to achieve the degree of success he otherwise would have achieved."

The specific charges contained in the complaint are that in May and September, 1904, while they were residing at Omaha, Neb., Howe charged his wife with being intimate with other women. She again made the charge in this city, in May, 1907.

Since that time, the husband says, Mrs. Howe has displayed unwarranted jealousy.

CHARGES INJUDICIAL ACTS.

Witness Against United States Judge Hanford Also Introduces Charges.

San Francisco, July 9.—The judicial conduct of Federal Judge C. H. Hanford in the bankruptcy case of Heckman & Hanson occupied the time today in the House Judiciary Subcommittee hearings to determine whether impeachment proceedings shall lie against the judge.

Attorney Jerry Landon Finch, the complaining witness, was on the stand all day. Finch accused Judge Hanford of judicial misconduct in his refusal to open the estate of a bankrupt firm and in the conduct of the case. Incidentally Finch charged that the judge's office here that trouble and Richard A. Ballinger, former Secretary of the Interior, appeared first as attorney for the maker of a note and afterward as counsel for a bank that foreclosed a mortgage by which the note was secured.

During discussion over the admission of evidence, Chairman Graham of the committee said: "We are not bound to take all the testimony offered. We are not a court; we are a committee. We are to determine whether there is sufficient evidence to warrant impeachment proceedings."

PROMOTING DISCONTENT.

Industrial Workers of World Prevail Upon Men Working on Government Project to Walk Out.

San Francisco, July 9.—(Special Dispatch.) Quarrying operations conducted at Jacoby Creek for the government by the Hammond Engineering Company were greatly delayed today as the result of a general walk-out of the workers.

For some weeks past agitation on the part of the Industrial Workers of the World has been in progress and reached a climax last evening. Yesterday afternoon Norton Ware, engineer in charge of the quarry, notified the workers that they were to be paid \$1.00 per day, but they were not to be paid until the strike was over.

It is understood that they demand the regular government day of eight hours, instead of the present day of ten hours, as required by the engineering company. It is not expected that the delivery of rock to the army engineers will be greatly delayed through the strike.

TO ELIMINATE MIDDLEMAN.

PRODUCE EXCHANGE INITIATIVE.

San Francisco, July 9.—The first initiative petition calling for the placing on the November ballot of a measure calling for the establishment of a State produce exchange, which shall sell all the produce of the State to the elimination of the "middleman" and advantage of all fruit growers and farmers, was filed today in the Secretary of State's office. It came from Alameda county. The plan calls for the appointment by the Governor of a State Produce Commission which shall establish headquarters in various central shipping points.

NEAL DRINK HABIT.

Treatment Superior To All Others.

The Modern Neal Treatment Has Many Advantages Over Old Time Methods.

To begin enumerating the advantages of the Neal Drink Habit Treatment over other methods, it is made that the Neal Treatment was originated by a modern physician—Dr. Neal—after years of careful investigation as to the cause of alcoholism.

Dr. Neal demonstrated that the condition called "drink habit" and "alcoholism" is neither a willful habit nor a disease, but a general poisoning of the system with alcohol, and requires treatment of thorough elimination and neutralization before the craving and necessity for alcohol can be relieved.

The Neal Drink Habit Treatment is composed of harmless vegetable matter, always administered internally—no painful, dangerous hypodermic injections—and eliminates the alcohol from the system and neutralizes its functional effect upon the body tissues in three days' time.

When the craving for drink becomes stronger than the will-power to stop drinking at once and never touch another drop, it means the Neal Treatment is needed. When the alcohol is eliminated and its effect neutralized, all craving and necessity for drink is gone and the drinker is again master of himself.

Fifty-three Neal Institutes in the principal cities of the United States, Canada and Australia are successfully administering the Neal Drink Habit Treatment.

For further information and reference, call at the Los Angeles Neal Institute, 945 South Olive Street, or write to place of U. S. Neal, Manager, for Dr. Neal's free book, "Phone Broadway 4602, A4072."

Denver's C. Church of Fresno, filed his first petition for the nomination from the Seventh District. He is a Republican, & C. Early of Riverside, sent the information to the Secretary of State that he would go into the race for Congress from the Eleventh District.

Stephen V. Costello of San Francisco, has announced he will seek the nomination from San Francisco to the Fourth District. He is a Democrat.

DEMAND SIX-HOUR DAY.

REGULATED BY THE MERCURY.

BUTTE (Mont.) July 9.—The platform which was adopted by the Socialist party of Montana last night contains a provision that a work day for laboring men shall be limited to six hours when the temperature rises above a certain mark. It is intended that each section fix the minimum temperature at which the six-hour day should go into effect with due regard to humidity and other local conditions. Mayor Lewis J. Duncan of Butte is the Socialist candidate for Governor of Montana.

LOWERS SECOND-CLASS RATE.

WASHINGTON, July 9.—(By A. P. Day Wire.) Publishers will be given an option between sending second-class matter through the mail at two cents a pound or by fast freight at one cent, if a provision incorporated into a provisional draft of the post-office appropriation bill now before the Senate Committee is adopted. The bill probably will provide an eight-hour day for post employees with a possible extension to ten.

INNOVATION.

TELEPHONE CONVERSATION ADMITTED AS EVIDENCE.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SAN FRANCISCO, July 9.—For the first time in the history of the courts of California, a telephone conversation was admitted as legal evidence, in a decision handed down today by the State Supreme Court.

The case was one in which the Union Construction Company was suing the Western Union Telegraph Company for damages incurred by reason of failure to deliver a telegram, thus allowing a valuable option to expire. The plaintiffs had shown that they had called up the telegram company to inquire if there were any messages for them and that they had been informed that there were none, but the lower court held that, even if it were proved that a connection had been established, there would be no way of identifying the person at the other end of the line, and therefore the evidence of the conversation was inadmissible. In reversing this decision the Supreme Court ruled:

"There was sufficient circumstantial evidence to make out a prima facie case of identity to prove that the office of the Western Union Company was reached by telephone and its agent answered."

"The general rule of evidence in other States is that where it is shown that witness called up the other party at his place of business, this is sufficient prima facie identification of the speaker at the other end of the line as the party called, or his authorized agent, and that upon such proof, the ensuing conversation, if otherwise admissible, may be testified to by the witness."

"It is proper to add that the weight of such evidence depends largely upon the circumstances of each case and is a question for the trial court or the jury."

WHAT ADAM AND EVE BEGAN THE TIMES WILL PERFECT.

And All The Times' Readers Will Play the Game for Rich Awards.

ADAM AND EVE had a game they called "What in the Garden of Eden is It?"

Adam used to break a branch off an apple tree—apple trees were all too plentiful there—and draw pictures in the sand. Each picture represented something, and Eve used to guess what those pictures meant.

They, the father and mother of mankind, started the interest in making out the meaning of pictures. That passion is in the blood of us all. It may lie quiescent and undreamed of, until there happens along just the right picture, and the proper challenge is in them, and the right twist to them. Then the fun begins.

Philosophers of all ages and degrees, scientific, home-grown, and of all other brands, have remarked on man's passion for solving the meaning of a pictured representation made him wrapped up in it.

Some have declared it to be woman's curiosity, but that is unduly incorrect. Man has the passion just as much as woman.

Men! Do You know the BROADWAY Is Selling

All Men's Clothing 1/4 off

These are dependable clothes, of the newest and best spring and summer styles.

Every garment is perfectly tailored, and made under the most sanitary conditions.

Your choice of the entire Broadway stock.

Note the following list for comparative value and sale prices:

\$25.00 suits one-fourth off.....\$18.75
\$20.00 suits one-fourth off.....\$15.00
\$15.00 suits one-fourth off.....\$11.25
\$12.50 suits one-fourth off.....\$9.38
\$10.00 suits one-fourth off.....\$7.50

And we make needed alterations free.

ARTHUR LETTS Broadway Dept. Store HOME 10571, BOWY 4944, BROADWAY COR. 4TH L.A.

neither is tailoring at 25 to 50 per cent. reduction all you might be led to expect.

High-grade tailoring and such discounts are incompatible—and when you bite such baits—you can't get what you expect to get.

I will sacrifice my profits to close out my summer suitings—but I won't sacrifice my reputation by hiring cheap tailors to make possible glaring reductions.

I am now offering \$7.50 off my \$50 suits, and \$6.00 off my \$40.00 Suits—which is every cent they will stand—and still give you Gordan standard of tailoring. Drop in and take advantage of this genuine saving today.

Gordan TAILOR—Est. 1886 300 Union Oil Building 7th and Spring Sts.

EXPLOSION KILLS MANY IN AN ENGLISH COLLIERY.

[BY CABLE AND A. P. TO THE TIMES.]

CONISBOROUGH (Eng.) July 9.—A double explosion in the Cadeby colliery in this district today caused the death of sixty-five miners. Many others are missing, and officials think the total death toll will reach eighty. As the victims are three government mine inspectors.

The two explosions were followed by three minor explosions, but despite this party after party of rescuers went down the shaft to find the dead. The deaths were all instantaneous. Most of the bodies were mangled. An accumulation of gas, which was ignited by the firing of a shot, is believed to have been the cause of the disaster.

Times Car.

(Continued from First Page.)

men, women and children were jammed around the machine to listen to Mayor Young and State Road Commissioner Ramey, who were pleased to speak from the tunnel of the car that is covered with the names of thousands of people who have taken part in the tour of 1911 miles, from Los Angeles to Cumberland.

crowd of Times car suffered. Rescued miners advised us to wait until evening before trying to send a drive to this city. The death toll in Pennsylvania today has been large, but the car reached an elevation of 2700 feet at the summit of the Allegheny Mountains today and when the sun was pouring down a thunder storm ripped the murky clouds and rain fell on the sun-scorched ground.

An incident of today's tour shows how the coast-to-coast tourists are cared for. One mile from the city limits of Philadelphia, Mayor A. C. Harrell of that city, with a spirited team of horses, met The Times car. His greeting was novel.

The schedule for tomorrow calls for a run of 161 miles to Baltimore, where a big mass meeting has been arranged. The roads are not good. The old national park is rough. The city of Philadelphia is particularly bad. The Times car must reach there at noon.

The chief executive of the thriving city had done all in his power to help the organizers and has been raised to the men who had given us the keys to the beautiful town among the hills.

PHILADELPHIA, July 9.—(By A. P. Night Wire.) Opposition was heard in the City Hall today to grant the request that the Liberty Bell be placed on exhibition at the Panama-Pacific Exposition in San Francisco there. My husband got me into this affair. While he merely used me for money purposes, my sole desire was to rid myself of him. I will do everything in my power to right the terrible wrong done to an innocent man.

From Philadelphia to Cumberland the run was through a country replete with thrilling incidents. The narrow, where the old Cumberland Pike ends, was made historic again, when the coast-to-coast tourists swept through the deep cut.

had with Mr. Donohue he gave me a considerable sum of money. I have been receiving since October, 1911, from \$200 to \$300 a month either directly from Mr. Donohue or sent to me by him through a woman. I was introduced to this same woman by Mr. Donohue as his intermediary, who would deal with me. Within a day or two before his suit was actually brought, Mr. Donohue gave me at his office about \$200 in cash.

THE AGE OF WOMAN. The age of woman-made her best life while accompanying Carl Brown to respond to the host, "The Musical Woman."

Some Beauty Helps You Should Know

The woman who prides her hair shampooes it frequently in summer months with canthrox and, in this way keeps it clean, bright and fluffy. A teaspoonful of canthrox dissolved in a cup of hot water is ample for a good shampoo, and after canthrox has been used, the scalp and hair are immediately clean, while the hair dries quickly and evenly. Canthrox is especially fine to restore the color and luster to faded, "straw" hair, and overcomes that "mousy" look so common in hot weather.

FORMER BANKER IS ARRESTED.

ANAKIN BANK DEFAULDED THROUGH WORTHLESS CHECKS

Colbert Was Once Identified With a Los Angeles Bank Which Enabled Him to Cash His Paper Empty—Santa Ana Trustee Discovers the State Highway.

SANTA ANA, July 9.—Telegrams received today from Chicago tell of the arrest there of K. J. Willis on a charge of passing a no-fund check at the First National Bank of Anaheim about a month ago. Willis at one time was a clerk in the Citizens' National Bank of Los Angeles, and while there became acquainted with Edgar Hartung, assistant cashier of the First National Bank of Anaheim.

Coming to that acquaintance, Hartung suspected nothing when Willis' automobile drew up in front of the Anaheim bank, and Willis came in and asked Hartung to cash a \$15 check for him. Willis got the money, and drove on to San Diego, from which place he is supposed to have gone on East. Advice from Chicago are that he is to start today for Santa Ana in charge of an arrest.

DISCOVER HIGHWAY. At the meeting of the City Trustees last night, a discussion over the route of the State highway through Santa Ana was participated in by residents of First street and Chatsworth avenue.

Mayor J. J. Stated that the State Highway Commission wanted to know if Santa Ana officers would pass the highway street right join to the State highway built to the city limits. Residents of both First and Chatsworth streets protested that it would be a heavy burden to expect the property owners to pay for the paving and some of them said they preferred having the traffic of automobiles pass on some other street than theirs. A resolution was passed by the property owners asking that the city pay for the paving.

THE TRUCK CITY ENGINEER. A. H. Plater said that he thought the residents of East Fourth street would gladly have the highway routed on that street and that he would be glad to pay for the pavement. He was appointed a committee of one to see if the residents of his street are in favor of the same. He said that in they are that street will probably be the street chosen.

NAUGHTY AUTOBOY. A young named Canfield of San Juan Capistrano is reported to officers that his wagon and team were practically forced off a grade by an automobile. He says he and his son were riding on a load of wood when an automobile came up from behind took the inside of the road, scared the mules and caused the wagon to go off the grade. Canfield's feet were badly bruised, and his son received a bad scalp wound.

HOT WATER. POMONA, July 9.—Hot water was struck at a depth of 4000 feet by the Los Nogales Company at Spadra yesterday. The temperature of the water is so high that the hand cannot be held in it. The company was hoping for oil and its officers are not pleased with the development.

Peas of Consular Officers. (Consular Reports.) The attention of the Department of State has been called by consular officers to reports that they are frequently in receipt of requests from legal firms in the United States to take depositions for them, but the necessary amount to pay for the services, etc., is sometimes not included with the instructions. Unless these expenses are guaranteed by the party from whom the deposition is taken it has been the practice of consular officers to inform the inquirers that it seems desirable that the attention of the public be called to this connection. In the official list of the depositions, executing commissions, testimony, including caption and certificate, does not exceed 100 words or 125 cents for each additional 100 words or fraction thereof, 50 cents.

The Source of Rain. (Harper's Weekly.) About three-quarters of the rain which refreshes the continents of the earth is due to the condensation of the water vapor rising from the sea and not to those coming from the oceans. Elaborate estimates based on all available data as presented in Germany for the entire globe are equivalent to a depth of about three feet. The quantity of rain water and melted ice falling in a year is put at 1,000,000,000,000,000 cubic miles. More than two-thirds of this falls upon the sea. South America, it is estimated, receives an average of 100 inches of rain annually on the surface of the sea.

Relief for Calf Horsem. (The Strand.) Frank Shuman of Philadelphia recently completed a pump which is to be used in Egypt for pumping up water. It can lift 3000 gallons of water every minute to a height of thirty-three feet. It is being worked in favorable weather at Philadelphia. In the winter climate of Egypt it will naturally do much more work in the same time.

The most important feature of a new engine is the steam generator. In the engine that Mr. Shuman has built for Egypt the water boxes which contain the rays of the sun to generate steam, and they are massed together over a space of 1000 square feet. When the mirrors are included the total heat catching area is about 10,000 square feet.

Final Notice SECURITIES

The Board of Directors of the Consolidated Securities Company declared a dividend of 4 per cent to be paid to all stockholders of record at the close of business Monday, July 15, 1912

The price of shares will also advance at that time \$5.00 on the 100, which, with the dividend, makes a large and

Attractive Profit

This company is WITHOUT DEBT at this time. It has combined assets and resources of nearly \$800,000.00. It avoids dangerous speculations and costly debts. It loans its money on prime securities that are SAFE and its real estate holdings are unincumbered. Its record is unique and it affords "safety first, then profits."

This May Appeal to You (especially if you're a coffee drinker)

The New Food Drink

Instant Postum

—a beverage with a flavor much like those mellow Javas which years ago came from the Dutch Plantations of the Southern Seas.

This new drink is said by many who have become acquainted with its delicate Java taste to be superior to much of the Brazil coffee marketed nowadays. But Instant Postum possesses additional merits.

It is made in the cup—requires no boiling, and is absolutely free from the coffee-drug, caffeine.

Tins containing sufficient quantity for about 100 cups of Instant Postum are sold at 50 cts., by grocers. Smaller tins at 30 cts., make about 50 cups.

Coffee Averages About Double That Cost

If your grocer does not have Instant Postum, send his name and address and a 2-cent stamp to cover postage, and we will mail you a 5-cup sample tin.

Made by Postum Cereal Co., Ltd., Pure Food Factories, Battle Creek, Mich.

THE BERRY TRIAL.
JOB HARRIMAN
THE WITNESS.
Defense Puts Him There as
Against Franklin.
Answers but Few Questions,
Objections Prevailing.
Two of the Lawyers Fined,
Then Let Off.

Job Harriman, defeated Socialist candidate for Mayor at the last municipal election, and one of the most prominent attorneys, was placed on the witness stand yesterday afternoon in the Darrow trial to answer questions of what occurred on November 24, the day that Bert H. Franklin, one of the defense attorneys, was arrested on a charge of jury-rigging. Because of numerous legal objections, Harriman was not permitted to answer more than half a dozen questions before adjournment, but he will be on the stand again this morning. He denied that he took any money to Darrow on the morning in question, that he saw Franklin at all that day or had anything to do with the events leading up to the sensational arrest. It is presumed that the defense is prepared to substantiate Harriman's testimony by others who will aim to show that Franklin was absolutely false in his assertion that Darrow handed him \$4000 in currency on the morning of November 24 and that Harriman did not enter the office at all.

The District Attorney requested that Sec. 1334 of the Penal Code relating to immunity from punishment for testifying concerning matters that might tend to incriminate one, be read to the witness, but the court denied the motion. There was a long and interesting argument on the question and the court gave much consideration to the legal phase of the proposition.

FINES BOTH, THEN REMITS.
In framing a question to Harriman that would embrace much of the testimony of Franklin, Rogers and Ford into a dispute that was settled by the judge, the lawyers raised their voices, one in reciting the question and the other in making his objections. Rogers appeared to have the more powerful voice.

The court stopped the confusion by requesting the lawyers at once to take their seats. He then said with some sternness: "It is an impossible situation for two lawyers to be standing up here in my court talking at the same time. I will not permit any such thing to be done. Mr. Ford rose in a haughty manner to interrupt the question Mr. Rogers was trying to propound. His conduct is clearly in contempt of court. It was disorderly and in view of the premises I shall fine Mr. Ford \$25."

Asst. Dist. Atty. Ford tried to be heard on the matter, but the judge indicated that his word was final and that he would not listen to any argument. Judge Hutton then reminded Rogers that he had erred in trying to ask the question while Ford was making his objection. He admonished him and fined him \$10. Rogers made an apology.

Later Judge Hutton remitted both fines. The examination of Harriman came late in the afternoon after the day had been spent in reading depositions taken in Chicago in which various men of prominence voiced their condemnations in Darrow and his reputation for truth, honesty and integrity. There were about forty such depositions as to the defendant's standing in Chicago and the Middle West.

HARRIMAN CALLED.
With the matter of the character witnesses settled, Harriman, who had been patiently waiting in the courtroom for several hours, was called to the witness chair. He was no sooner there than a debate was precipitated by the request of the District Attorney that the so-called "immunity" section be read to him.

Darrow declared that never in the history of jurisprudence had there been a time when a defendant was not entitled to call whom he saw fit as witnesses. He said the section was a question was asked for the benefit of the State, and that the witness just called had come voluntarily into court. There were arguments by Rogers, Rogers, Ford and Fredericks. The court ruled with the defense.

Harriman was quizzed by Rogers. The lawyer stood near the jury box as he was on a line with the witness. Ford objected and Rogers resumed his seat. In response to a series of questions Harriman stated that he was retained as one of the counsel for the McNamara shortly after they were brought out here in custody. He said his own campaign for the Mayorality began in October about the time of the opening of the trial and that he was busy in political matters from then on.

"Where was your office?" inquired Rogers.
"In the Higgins building, Second and Main streets."

"Where was it in reference to Mr. Darrow?"
"Mr. Darrow had the four rooms on the southwest side facing the alley. Mine were across the hall."

The witness went on to explain the exact location of the various rooms occupied by the lawyers for the McNamara.
"Was there any vault or safe in Mr. Darrow's office?"
"No, sir, I had a safe but Mr. Darrow did not have either a key or the combination."

"Do you know Bert H. Franklin?"
"Yes."

"Did you know his connection with the McNamara defense?"
"I believe he was looking up the history of prospective jurors."

"Do you know John H. Harrington?"
"I do."

Rogers then started to frame a long question that would embrace the elements developed during Franklin's examination. He said he would try to make it as brief as possible. Ford took repeated objections. Rogers was asking a rephrased question when Ford started another objection and the two lawyers spoke for several minutes until the court stopped them both.

AS TO DARROW.
Judges, lawyers, politicians, clergymen, sociological workers and men of affairs gave written testimony as to the past and present good reputation of Darrow.

\$1 A WEEK
Buys a Victor Outfit or a Fine, New Piano

SERVICE!
According to our view point, there is a great deal more to the sale of a piano or a Victor Talking Machine than the mere transfer of a mechanical thing in exchange for money. We feel that a sale is not consummated until the customer is absolutely satisfied, and we will go to almost any length in order to secure his or her satisfaction. It is part of our service to offer musical goods for lower prices and on easier terms than any other store can meet. Hence the offer in this advertisement.
\$1.00 a week for a Victor outfit.
\$1.00 a week for a new Piano.

CELESTIAL MAMAS AND KIDNIES
PICNIC AT EASTLAKE.
Some Are Dressed in a Mandarin and Most of Them Wear American Clothes and All Seem Proud of Their English—Affair Given by Six Mission Schools.
Young China came into its own yesterday and today. For five sunny, happy hours Eastlake Park claimed the women and children of Chinatown, and the yellow ladies and their interesting babies romped among the water lilies, the peacocks and other Eastlake charms in freedom and delight.
Operating in Chinatown are six mission schools and these united yesterday in a picnic for their Christian charges. Presbyterians, Congregationalists, Methodists, New Testament Church members and Independents entered the spirit of the day with pleasure and zest, with the result that baby Ching, whether in his coat of many colors or in sober American dress, had the time of his life.
They were never still long enough to count them, but it is estimated by their teachers that 150 Chinese children from 1 month to 13 years of age were present and that they were chaperoned by about fifty mothers and ten grandmothers.
Many curious and interesting facts of modern Chinese life in Los Angeles were demonstrated at this picnic. A smaller percentage of Chinese babies and women were dressed in picturesque native costumes than has been noticeable in any other of the twenty annual picnics which local missionaries have held for their benefit. Few were the bound feet among the women, although here and there one noted the lily feet of the old days when dainty yet cruel wooden shoes were worn by all women of China. Not many American shoes were worn by the women, but most of the silk embroidered slippers encased feet that seemed ample, comfortable and of abundant strength to support graceful and supple bodies.
Perhaps a dozen of the women appeared in conventional black silk coats and bloomers. It is not improbable that bloomer is a misnomer, for the pantaloons of the women are not of extravagant proportions, being more of a pajama effect. At least two of the women wore this kind of suit in beautifully-colored silk. One was clad in a soft gray like the silver of twilight with a sheen that had about it the shimmer of the moon. The other wore a pale blue that was softer than any lake and in it was a subdued figure like the water lily or the white iris.
Some twenty of the babies under 18 years of age wore native costumes of rich colors. The pride of every child present seemed to be that he or she spoke English and they answered questions put to them by a curious throng with fine abrupt indifference and sometimes with a haughty that bordered on scorn.
Some of the families were large. One Chinese mother with her own youngsters in charge of five young ones who seemed almost of an age as far as growth was concerned. A yet prouder mother had a brood of eleven yellow chicks under her maternal wing. Mrs. Wong Si Pay and Mrs. Kam might have won prizes for the health and downright handsomeness of their youngsters.
Ting Ching ignored the fact that it was a woman's party and proudly drove his own family to the park in a fine automobile which represented the profits of many chests of tea.
The church people gave all of their charge a fine automobile ride and a big free dinner cooked American style. Mrs. Lam, a native missionary from San Francisco, made a speech in Cantonese, which is the language that most Los Angeles Chinese speak, and she was followed by an address in the same tongue by Miss Vella Wilcox, a returned missionary from China, who now resides in this city.

ANYBODY SEE HIM FLEE?
Motorcyclist Perhaps Fatally Injured and Police Have No Clue Regarding Accident—Others Hurt.
Arthur Sacramento, No. 400 West Ninth street, 33 years old, an employee of the Los Angeles Gas and Electric Light Corporation, was taken to the County Hospital yesterday with a fractured skull, which it is feared will result in his death.
He was found lying unconscious near Seventh and Alvarado streets. Near him lay his motorcycle. How Sacramento was injured is not known. It is thought his machine skidded. Another theory is that Sacramento collided with some vehicle and the driver did not stop.
Mr. T. Collins, 55 years old, a feed and fuel dealer at No. 1218 Stephenson avenue, suffered a dislocated and broken right hip yesterday when he was thrown from his buggy on Hill street, between Ninth and Seventh. As he was alighting, L. J. Marsh, No. 1118 Westchester place, a real estate operator, ran into the vehicle with his auto, throwing Collins to the pavement.
Peter McGuire, No. 3074 East Sixth street, employed by the California Hardware Company, was injured when a keg of horsehoes falls fell twelve feet yesterday, striking him on the left shoulder, contusing it and making an abrasion over the left eye.

BEAUTY CULTURE FOR COPS.
Doctor Installs Apparatus at Central Station and Will Give Physical Development Talks.
"You can beat your blowing."
"You can't blow a baby's tin whistle."
"You haven't as slyph-like a waist as I have."
"You breathe deep and develop your chest."
"You don't know anything about machinery, but tackle the apparatus and straighten your shoulders."
"You carry too much excess baggage, boy; take a try at the anti-obesity machine, and reduce the weight your poor legs have to carry."
The foregoing expressions are the result of a visit of Dr. Samuel Cole to police headquarters. He carried a number of queer-looking physical culture instruments.
"I want the boys to use these machines," he said to Secretary Shively as he deposited half a dozen machines on the floor. "I want to make this department the physically perfect one of the county."
The doctor went into a minute description of the uses of each instrument, and what its effects are on the muscular development of the body. His deep-breathing apparatus shows a top-notch record of 400 cubic inches. Sergeant Huff yesterday forced up the indicator to 535, and Patrolman Mortensen to 550.
Dr. Cole has been given permission to place his apparatus in the assembly-room on the third floor of the Central Station and give the officers and men physical culture instructions gratis. He will also deliver a course of free lectures, tending to instruct the men how to reduce obesity, breathe deeper, enlarge the chest, straighten round shoulders and reduce the waist measurement.

SEVEN KIDS GO A-FISHING.
They Land in Central Police Station and Tender-hearted Cop Gives Them Carriage—Buy Candy.
Seven small boys and a dog, on the bank, expectantly watching seven corks bob up and down on the ripples of Sunset Park lake yesterday. Beneath the surface were seven squirming worms impaled on seven sharp hooks, calculated to catch seven goldfish.
The quietude of the scene was disturbed by a rustle in the bushes. One of the boys glanced around.
"Cheese it, kids; a copper!"
There was a scramble, and the kids were on the run. But the copper proved too quick for them.
At the Central Police Station the youngsters were arraigned before Desk Sergeant Tyler.
"Caught 'em fishing in Sunset Park," declared Sgt. Wallace. The boys shifted from one bare foot to the other.
"Don't be hard on 'em, pleaded the sergeant. 'I caught two of my kids doing the same thing the other day.'"
Then Everett Palmer, No. 2088 Cambridge street, plucked up courage.
"Please don't send us to Whittier; I promise never to do it again," he declared.
"So do I," chorused the others.
"Me mudder can't get along without me," proudly boasted Ray Fuller, No. 1515 Pacific avenue. "Me fadder is dead, and I have to help around de house."
"Tomorrow is my birthday, and my aunt's goin' to give a party for me, and I don't want to miss it," pleaded Willis Brown, who lives at No. 2232 West Eighth street.
"A big fat man told us we could fish there," explained Albert Gross, No. 566 South Grand View avenue.
"That's de truth," commented Austin Tilden, No. 2217 West Eighth street, the youngest member of the party. "Honest, mister he did."
"Are you sure telling the truth?" asked Sgt. Tyler. "If you are, it may save you a lot of trouble. If you are not, then it may get hard with you." The sergeant winked at Wallace.
"Surest thing you know," declared Otto Steffens, No. 1655 Normandie avenue.
No amount of cross-questioning could shake the boys' story about the fat man, and after a severe lecture by Lieut. Spelman, and on their promise "to go and sin no more," the boys were released.
"How are you going to get back home?" asked Sgt. Wallace.
"Hoof it," replied Steffens.
"Well, here's a nickel each; you'd better ride."

INTENSE ITCHING OF SKIN AFFECTION.
In Rash on Leg, Spread to Other Parts of Body, Several Days Pain Caused Nervousness and Loss of Sleep, Outlets and Ointment Effected Cure.
JULY 2, 1912, Los Angeles, Cal.
The skin affection began in a small, red, itchy rash on my right leg, and soon spread to other parts of my body. It was very painful and caused me great distress. I tried various remedies, but nothing seemed to help. I then saw Dr. [Name] and he prescribed [Name] Ointment. I used it as directed and in a few days the itching stopped and the rash disappeared. I am now completely cured and can sleep peacefully again. I highly recommend Dr. [Name] Ointment to anyone suffering from skin afflictions.

Going Some.

NELLIE BLY'S GLOBE TROT CUT IN TWAIN.

SHADES of Phineas Fogg and Nellie Bly around the world in thirty-nine days and all in a day's work. This is the experience of J. Allan and E. J. Scott, who returned yesterday to this city from the East after having left here on their journey westward on the evening of June 1.

Scott and Allan mapped out an itinerary that would take them around the outside rim of this old globe in the shortest possible time. D. F. Robertson mapped out the course and with everything prepared for them and knowing exactly which train, steamboat, or ferry they would take and when they would take it, the two young men set out on their journey as carefree as though going from here to Pasadena or Watts.

They left over the Southern Pacific title for several years, forty-one days.

ONE OF THE CLEVELAND GRAYS SEEKS SISTER.

MORE than pleasure actuates the visit of William S. Gilbert, one of the oldest members of the Cleveland Grays, to Los Angeles on the present trip of that famous military organization, which arrived here yesterday morning over the Santa Fe. He is seeking a long-lost sister, who resides in this city, according to all information he possesses of her. One of the peculiar features of the case is that he does not know her name, she having married years ago. Many of his friends in the organization are making inquiry for him, and it is expected that the sister will be found before the three-day sojourn here is at an end.

The Cleveland Grays were organized in 1871 and served throughout the Civil War, and more recently in the Spanish War, so that nearly all of the members of the regiment are veterans. They have their own barracks in Cleveland and were given a rousing send-off on their departure for the Pacific Coast States. There are 155 persons in the party, and all went to Catalina yesterday morning. After a view of the submarine gardens, and luncheon at the Metropole Hotel, they returned to Long Beach, where they were guests at dinner at the Virginia. This morning they will visit Pasadena, and during the afternoon they will be guests of the Chamber of Commerce on a trip around Los Angeles and to the beaches by trolley. Tomorrow morning they will leave for Santa Barbara. Captain Frank M. Hawley is in command of the excursion, assisted by Lieut. S. H. Kramer and Lieut. L. S. Conally. It required two locomotives to pull the heavy train. Fourteen coaches comprise the equipment which takes care of the

336 So. Broadway

SOCIETY

Mrs. George H. Busch, formerly Miss Nellie Leslie of Riverside.

MRS. HUGH LIVINGSTON MACNEIL was the hostess at a merry motor car party on Monday evening, with the Annandale Country Club as its destination. There the motorists dined on the terrace, all of the company facing north to catch the effects of Mr. Lowe in the waning light. The only lights for the dinner were pink-shaded candleabra, while the formal embellishments were carried out in giant Shasta daisies and honeysuckle.

The party was made up of Dr. and Mrs. Bertrand Smith, Mr. and Mrs. Alfred Solano, Miss Elizabeth Winters, C. E. Judy, Ralph Earl, Barry MacNeil and A. W. Scott of Cambridge.

They played cards after dinner and remained at the club until a late hour, after which the autos conveyed the guests to their various homes by a serious route.

Wedding Announcement.

Announcement of the wedding last Saturday in this city of Miss Helen Marguerite Keeler, daughter of Mrs. G. J. Davis of Los Angeles, and Leon Vincent Brunner, will delight their many friends. Mr. and Mrs. Brunner are domiciled on South Alvarado street and will soon leave for a pleasant honeymoon trip.

Some Stag Parties.

Stag parties are getting altogether less popular of late and hostesses are regarding them with a doubtful eye. The Annandale Country Club was the scene of three such affairs on Sunday and Monday evenings, when Dr. W. J. Patton entertained in honor of two visiting attorneys. Then Maj. Gwin entertained with W. C. Smith as his chief guest, and Mr. A. Shaw, E. R. Wirtz and H. N. Neymeyer were

the hosts at another. E. C. Kammerer, F. L. Mackay, G. A. Schwarz, A. A. French and Edward Elliot made up another party on Monday evening—so that one way or another there may be said to be a stag epidemic in social circles.

Mr. and Mrs. J. L. Preston have returned from Lake Tahoe after a long stay and were also to be seen at the club on Saturday.

Art and Society.

Mrs. Hancock Banning has long been recognized as a valuable patroness of California artists and yesterday afternoon she was to be found presiding at an interesting studio tea with Joseph Greenbaum, the portrait painter, as host of the occasion at Blanchard Hall.

The party afterward visited the large gallery on the opposite side of the corridor where William Swift Daniell, the landscape artist, is exhibiting several pictures by a number of well-known California artists.

Engagement Luncheon.

Mrs. Thomas Caldwell Ridgway of Menlo avenue had the pleasure yesterday afternoon of announcing the engagement of her cousin, Miss Cora Lord, to Maj. Andrew James Copp, son of Mr. and Mrs. A. J. Copp of Inglewood street.

This bit of news was told at a luncheon and bridge party, decorations for which were clusters of old-fashioned blossoms arranged in pretty profusion. Miss Lord, who is an orphan, makes her home with her aunt, Mrs. H. D. Davis of Highland Park.

Maj. Copp was graduated from the Boston Latin School and later from Stanford. He took special work at the University of Michigan and since

that time has won honors as a clever lawyer in this city. He is a member of the Arab Patrol of the Shrine and is captain of the Arab Legion of Honor. No date has yet been set for the wedding.

Alexandria Tea Party.

Complimentary to Miss Helene McVay, daughter of Mr. and Mrs. William E. McVay of No. 1190 West Twenty-ninth street, who is betrothed to Harold Paulin, Miss Martha Deeman of No. 2647 Ellendale place entertained yesterday with a tea party at the Alexandria. The table glowed with a centerpiece of pink sweet peas and maidenhair, which later placed the bouquets for Miss Helene McVay, Miss Laura Anderson, Miss Charlotte Cowles, Mrs. Kenyon Farrar Lee, Miss Frances McVay, Mrs. William W. Roman, Miss Lois Salisbury, Miss Ruth Grant, Miss Janet Bryant, Miss Olga Paulin, Miss Wessona Brington, Miss Helen Livingston, Miss Genevieve Wilcox, Miss Ruth Denman and Miss Louise Roberts.

Married in Riverside.

The marriage of Miss Nellie Leslie of Georgia street and George H. Busch of this city was solemnized at the Glenwood Mission Inn, Riverside last evening at 8 o'clock. Both the young people have long been betrothed of this city, and the marriage is the result of long and determined courtship. Miss Leslie is a striking southern blonde type. She was born in Atlanta, Ga. They will make a long stay and were also to be seen at the club on Saturday.

Guest of Sister.

Mrs. Elizabeth Thompson of Paxton, Ill. is the guest of her sister, Mrs. T. M. Kell of No. 222 South Burlington avenue.

Cherishing News.

Mrs. M. L. Bates and her daughter, Miss Emma Bates, left Tuesday for Jacksonville, Fla., where they were called on account of the serious illness of Mrs. Bates' youngest daughter, the leading social belle of the past two months at Ann Arbor, Mich., and Lake Geneva. Late in evening a wire was received by Mrs. W. F. Callahan, announcing the slight improvement in Miss Bates' condition.

Santa Barbara News.

Fourth of July festivities at the Santa Barbara Country Club were easily the leading social delight of the week. Special effort was made to enhance the fact that the destruction of the club building is not to be permitted to interrupt summer plans. The William Miller Graham cottage, which has been leased as a summer clubhouse, and which adjoins the links and tennis courts, was a scene of an all-day levee and evening dinner-dance. Tennis occupied the time of the young people during the day, with swimming races for variation, and the more elderly members found enjoyment on the golf links, though their scores were contested by some of the younger underlings.

In connection with the burning of the clubhouse, it is now known that the directors received from Mrs. William Douglas, owner of Montecito Park, the offer, rent free, of two of her cottages until such time as the new clubhouse should be completed. The directors decided in favor of the Graham house, because it is nearer the clubhouse.

Miss Bertha Spaulding entertained a party of eight at dinner at the Arlington yesterday evening. The guests were: Louis G. Dreyfus, who is in this city, who for the past year has been connected with the United States consulate at Buenos Aires; the late post of Vice-Consul-General at Calicut, Peru. He is expected to visit his home here on his way to his new station.

POISON ON ANGELENO.

Arrested in San Francisco yesterday, the officers say he intended to commit suicide.

C. T. Brandt, a machinist and inventor who is wanted in Los Angeles on a charge of failure to provide for his minor children, was prevented from committing suicide in front of the hotel desk in the City Prison of San Francisco late yesterday afternoon soon after his arrest by the vigilance of the officers.

According to dispatches from San Francisco, Brandt, after giving his name to the booking sergeant, inserted his hand into his inner vest pocket. The quick movement was observed by Detective Gallardo, who grabbed Brandt's hand and then took from Brandt's vest pocket a wallet. Inside the wallet was a package containing enough grains of potassium to have killed 100 persons.

Brandt was booked as a fugitive from justice, and will be held pending the arrival of a detective from this city. In the meantime the northern detectives are investigating to ascertain if there is any truth in the accusation that Brandt is other-wise involved. The warrant for his arrest was secured in this city by Mrs. Helen Brandt. The northern detectives learned, dispatches say, that Brandt's supposed first wife, a machinist, is in San Francisco, and that they were together. Brandt vigorously denied that he was ever married to any other woman than the one in this city, and said that the northern woman was not his wife, and that he had not seen her for six years, or before his marriage to the Los Angeles woman.

DETECTIVE UNDER CLOUD.

While testifying in Porterville a warrant is issued alleging misappropriation of funds.

PORTERVILLE, July 9.—Two deputy sheriffs from San Diego, whose names were not learned, arrived here this morning with warrants for the arrest of E. E. Ek, who under the name of P. J. Downing swore to complaints in the city liquor cases now pending in Judge Hall's court, after Ek, or Downing, had done alleged detective work in securing evidence against the alleged offenders.

According to the San Diego officers, Ek, or Downing, was in the employ of the Arrington Detective Agency in San Diego, and that while in their employ he collected money due the agency, but he failed to make an accounting.

Downing was on the witness stand in the case which is being tried against Charles Wicker, who is charged with illegal selling of whiskey, and finished his testimony yesterday noon. He was instructed by the judge to appear in court again today. When he was called it was learned that he had left the city, with the statement that he would return today. When the officers arrived from the south the local police expressed some skepticism as to his return.

Ek had not been located up to a late hour this evening.

LETTERS TO "THE TIMES."

New Name for Watts.

LOS ANGELES, July 7. — [To the Editor of The Times:] I sent the article in The Times of this morning about a new name for that hustling and bustling, but much-abused little burg, Watts! Wonder how the name "Enterprise" would strike the good people of this thriving, flourishing and fast, but not least, enterprising little commonwealth? It's a 7-to-5 gamble that all who "enter" its gates from now on, and for "keeps," stand a swiftness to land a "prize" of some kind.

W. R. BATCHELOR, No. 212 East Fourteenth street.

The "As Man."

LOS ANGELES, July 8. — [To the Editor of The Times:] I notice in your paper the atrocious being perpetrated on the natives of Retumayo by negro deputies of the South American Rubber Company, which is a disgrace to modern civilization and to which we hold our hands in horror. Yet we have nearly the same thing at our very doors and not a word is being said or a line being printed in our daily papers about it.

I refer to the terrorizing of negroes in Texas by what is known as the "as man." Two families have been stripped out and the rest of the negroes live in daily terror of being put to the ax.

There must be some well-thinking whites as well as intelligent and reliable negroes in the parts so terrorized (to wit, Austin, San Antonio and Houston, etc.) whose statements should be obtained and if the facts gathered therefrom should warrant it they should be brought to the attention of the Governor of the State.

JAMES E. MORTON, No. 1454 San Fernando street.

An Imaginary Party.

LOS ANGELES, July 8. — [To the Editor of The Times:] I am a "progressive" Republican in all that the name implies. I realize the sincerity behind the movement to organize a third party with Roosevelt as its leader, but I am unable to agree with the contention that it is the duty of a Republican who stands for progressive principles to leave his party. In this crisis it behooves each of us to

weigh the situation carefully. Having at one time decided that it was my duty to leave the Republican party and support the nominees of the Democratic party for President, and knowing well what such a step means, what I should do should not be accepted in the light of partisanship, but as coming from one who knows from experience what it means to leave the party. With a large majority of the Republicans of Idaho, in 1904 I believed that the party was making a mistake in refusing to support the principle of bimetallism, and that it was the duty of every Republican to do so. I was not alone in this. In harmony with the spirit of the times, it seemed to me that it was my duty to leave the party and support the nominees of the Democratic party for President.

Now, in 1912, I believe that the party is making a mistake in refusing to support the principle of bimetallism, and that it is the duty of every Republican to do so. I was not alone in this. In harmony with the spirit of the times, it seemed to me that it was my duty to leave the party and support the nominees of the Democratic party for President.

Chronic Ulcers Mean Bad Blood

If outside influences were responsible for chronic ulcers, then external
applications and simple cleanliness would be a curative treatment. But the
trouble is always in the blood which has become unhealthy and diseased,
and keeps the sore open by continually discharging into it impurities and
infectious matter. Salves, washes, lotions, etc., may
cause the place to scab over temporarily, but the blood
is not made purer by such treatment and soon the old
inflammation and discharge will return and the sore
be as bad or worse than before. S. S. S. heals old
sores by going down into the blood and removing the
impurities and germs which are responsible for the
place. S. S. S. thoroughly purifies the circulation
and in this way destroys the source of every chronic
ulcer. In addition S. S. S. enriches this vital fluid
and assists nature by overcoming the bad effects of a chronic ulcer. Book
on Sores and Ulcers and any medical advice free to all who write.

ARTICLES ARE DRAWN.

For Another Fight With
Wolfgang and Rivers.

The Terms Will Be Nearly
Same as Before.

Plans of the Fighters in
the Mean Time.

Mat Wells, Knock-out Brown
and Joe Mandot, have all tele-
graphed to Uncle Tom McCarrey
asking for fight dates this sum-
mer.

He will probably accept all
the offers. A fight between one of
these three boxers and Willie
Ritchie will be staged at Ver-
non in August.

Rivers and Wolfgang will fight
on Labor Day. The winner of
the second Rivers-Wolfgang
fight will meet the winner of
the Ritchie fight.

Articles of agreement were drawn
up yesterday for a return fight be-
tween Joe Rivers and Ad Wolfgang.
They have not yet been signed.

It is understood that the articles
are identical with the terms of the
former contract, with one exception:
This time neither Rivers nor Wolfgang
will be allowed to have any other
fights between the time of signing the
articles and the day of the fight.

Nothing will be said about the re-
feree. Uncle Tom McCarrey will settle
that question himself. Hereafter, de-
clares McCarrey, no outside referee will
ever step inside a Vernon ring. All
future Vernon fights will be staged
with the understanding that Charlie
Egan will be the third man in the ring.

The purse for the next Rivers-Wol-
gang fight is a matter of private under-
standing between the fighters. The di-
vision of money will be the same at
the next fight with the difference that
Rivers will be allowed a share of the
moving-picture profits.

While waiting for the fight Wolfgang
will go to Oregon to negotiate the
purchase of some land for a big cat-
tling company that he intends to form.
He will go bear hunting in the north-
west country and then go back to his
place in Cadillac to look after the mar-
keting of his stock and hogs.

Rivers will go on in vaudeville for
a limited engagement in Los Angeles
and then go East over one of the cir-
cuits.

RIGHT PICTURES NOT SHOWN HERE.

As a result of a conference with
City Prosecutor Eddie yesterday, at-
tempts to show the fight pictures in
Los Angeles have been abandoned
by the owners thereof. The pictures
will be shown at Vernon and Venice.

COFFROTH HOT AFTER AD-RIVERS.

(By Federal (Wireless) Line to
The Times)
SAN FRANCISCO BUREAU
OF THE TIMES, July 9.—
[Special Dispatch.] Coffroth
doesn't intend to let McCarrey
secure the Wolfgang-Rivers
match without a battle. The
keen interest that is being dis-
played in the matter has
caused Coffroth to "smoke up"
to the match more than he did
when he was in Los Angeles.

Since his return to San Fran-
cisco the promoter has decided
to make a good-sized bid for
the return battle which he
plans to stage on September 9.
If he is successful in landing
it, Coffroth got Tom Jones on
the long-distance telephone
last night and although the
champion's manager is so ill
that he is confined to the
house, promised to leave Los
Angeles some time during the
present week, and that he will
not do anything definite re-
garding a return match be-
tween Wolfgang and Rivers un-
til he has had a chat with Coff-
roth.

The probability is that Wol-
gang and Jones will reach San
Francisco about Thursday or
Friday. They will remain here
for a few days only, as out-
side the conference planned
with Coffroth they have no
other business to transact here.

Well, we all went down to Pantages
in the middle of the night and stared
at the pictures of the fight between
Wolfgang-Rivers which were put
on after the vaudeville show.

But I don't see that we found out
much. I haven't discovered any two
who agree as to what the pictures
show.

You can see Wolfgang's left hand
flash in an upper cut which seems to
be going very low toward Rivers's
face. Owing to the black background
of Rivers's trunk, you can't see how
it lands.

Oh, Well.

It doesn't seem to matter very
much, anyhow. The referee's deci-
sion has been rendered, and all the
fight pictures in the world can't
change it. . . . even if it were ad-
mitted that it ought to be changed.

Neither Embarrassing.

The premier of the pictures was
rather embarrassing. Uncle Tom Mc-
Carrey, Joe Levy, Ad Wolfgang and
Charlie Egan and others whose re-
lations are supposed to be rather
strained, were all huddled together in
the dark.

Ad kept up a fire of tart comments
as the fight progressed.

There goes McCarrey's little Joe,"
said, as Rivers reeled back from
a blow in the pictures. Ad has al-
ways maintained that McCarrey is
financially interested in the manage-
ment of the Mexican boy.

Slow Fight.

On the whole, Ad was rather dis-
pleased with the fight.

"Gee," he said, "that must have
been a slow fight to watch. I didn't
know there was so much clinching
and holding in it."

"The fighters ARE certainly mak-
ing their money easy," he complained
whimsically. "You can see that the
Dutchman is saving himself. I have

YOUNGSTER, WEEPING, LANDS RECORD FISH.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

VALON, July 9.—With tears con-
tinually streaming down his
cheek, Sidney Strotz of Winnetka,
Ill., fought and brought to gaff the
season's record yellowtail, weighing
fifty-one pounds, while fishing from
the launch Junia off San Clemente
Island. The fish was brought into
Avalon and Strotz was given a gold
button from the light tackle clam of
the Tuna Club.

He is fourteen years of age and is
the youngest angler on record holding
a gold button for deep-sea fishing.
Besides receiving the button, the lad
is in line for winning several valuable
prizes given for the summer tour-
naments.

Post-hocked, the yellowtail fought
for over three hours. Each time it
was brought to the surface by the
young angler it made a spectacular
dash for liberty. By actual count the
boy had the fish "almost to the boat"
twenty-seven times. For a second
the fish lay on the surface. With the
speed of a train it would start on an-
other exciting run, churning the water
into a white foam as it plunged on
its downward course.

Grimly holding to the rod and ap-
plying the brakes, tears streamed
down Strotz's face as he watched the
fish take away yard after yard of
the nine-thread line. Without stop-
ping to dry his tears he dodged from
one side of the launch to the other
so that his paraphernalia would not
become entangled.

ALMOST "ALL IN."

"Shall we cut the line, kid?" asked
the father, after it had been seen that
the fish was hooked in the side of the
head instead of the mouth. "You'll
never land him. It's too big. Better
let him go and give some of us a
chance to hook him again. He is a
gold button, sure!"

Once more the boy reeled the line
over the rod, which bent itself almost
like a hoop. Exhausted and almost
dead, the boy finally reeled the yel-
lowtail to the surface several yards
from the boat. It was all the angler
could do to reel the big fellow the
remaining yards of line and make the
fish his prize.

The boy is the eldest son of Dr.
J. K. Strotz of Winnetka, Ill., and
the party left for San Clemente Island
for a week's cruise, but returned to
enter the yellowtail in the records of
the Tuna Club. Since the latter part
of June young Strotz has been fishing
almost daily to land a game fish. He
has already several good catches of
albacore, barracuda and rock bass to
his credit.

Walter Leverenz,

Los Angeles pitcher, who came back yesterday and shut out Vernon team in fine one-scratch-hit game.

HOW NAGLE SILENCED INSULTS OF A FAT FAN.

PITCHER WALTER NAGLE came
near following the example of Ty
Cobb yesterday with a fat fan in a
sold box near first base.

Several loud raucous yells
sounded from the bleacher box to-
ward the end of the game yesterday
but none of the fans paid any par-
ticular attention to them for there had
been a lot of yelling and cheering dur-
ing the game.

Suddenly Nagle, who was coaching
at first, whirled around and ran over
toward the box. Bending over the fat
shrinking figure of a fan known as
Casey, the tall pitcher threatened
violence.

He could be seen all over the field
as he shook his finger in the fan's face
and poked on the rail in front of
the box. Casey looked badly fright-
ened and began to squeal. "He's going
to hit me; listen to him! He says he's
going to kill me!"

Nagle said, after the game, that
while he was coaching he heard some
one howl: "Oh, you big bum, Nagle.
When are you going to pitch again,
you —"

According to the story of those who
sat in the box, the pitcher came over
to the box and said to Casey: "Ray,
my friend, just cut that stuff out. I've
a good notion to poke you right be-
tween the eyes."

"He's going to hit me; he's going to
hit me," cried Casey, excitedly.

"Yes, I've a notion to," answered
Nagle, "and hereafter you keep your
mouth shut. If you ever open it
again I'll kill you," said the irate
pitcher.

"Did you hear him?" shrieked Casey,
looking around at the other occupants
in the box. "Did you hear him say
he was going to kill me?"

For the rest of the game, Casey was
enveloped with a thick silence that
was almost stupendous.

against boxing in its different phases
throughout the world.

Fights for big purses are always
followed by a campaign on the part
of the reformers. No one seems able
to explain just why this is, but the
fact is indisputable. It isn't the
rough, brutal scheme that endangers
boxing. It's the fight for big money.
Nobody ever thought of interfering

ONE-HIT GAME FOR LEVERENZ.

Only Shut Out Angel Flanagan
Is Carlisle's Scratch.

Only Two Tigers Got as Far
as First Base.

Brackenridge's Fine Work
After Opening Inning.

BY GLEY OLIVER.

Los Angeles, 4; Vernon, 0.
Talk about one-scratch-hit games!
Walter Leverenz, Los Angeles pitcher,
paw, is the greatest one that ever hap-
pened, for, after having been scratch-
ed out of a scratch hit game, he
actually carried out on a scratch hit
last Friday's game against the Tigers.
He "scratched" yesterday and today
marvelous ball against the Tigers,
shutting them out and allowing only
one scratch hit.

On Friday against Oakland he
made seven runs off him in the fifth
inning and six runs were scored be-
fore one man was out. He allowed
four singles, a double and seven base
hits on balls and was about the worst
exhibition of a pitcher ever heard of.

Yesterday he was a made-over man
altogether. For, after Carlisle had
busted out a scratch hit game, he was
by first base, none of the Tigers had
touched him.

Carlisle was out trying to reach first
base, but he was out before he reached
the second base by being hit by the
pitcher.

These were the only two hits that
reached first base.

Carlisle's speed alone gave him a hit
hit, for, had he not caught himself, he
and Leverenz's hitting, he would have
reached first. In revenge for that
Lucky hit, Leverenz fanned him three
next three times he went back to the
bat.

It was a great day for the team
heaver and the principal thing shown
is that no finger in our country has
same two days in succession.

Not content with fanning Carlisle
three times, he struck out three
times and Kane. Hop and Kline
once, and if this is not an exhibi-
tion of high-class pitching you should
find it any place in the country.

BRACKENRIDGE'S RIGHT.

Speaking about pitchers, it should
be stated that, while Leverenz was
there with everything, Brackenridge
was there with nothing. The Ang-
els' pitcher, he was a triple and a single
him in the first inning for a run and
three errors, a single and a double.
He made three more in the third in-
ning.

It was curious after that for the
Angels, for they got but one run out
of him from the third to the end of the
inning. If you think he did not do
that ball right up the side you should
have seen him. In four of the last
six innings not a man reached first
base, and the three that did get out
in the fifth and seventh were hitless
and had to stick at second base.

Five hits were all that the Angels
got off him and these would win the
game out of him. Brack fanned three
men, which is more than the average
for any game. Still, with Leverenz
heaving championship ball, the work
of Brack was overlooked by the
big majority of the fans.

Such games as these are due to look
at from a baseball point of view, but
are poor sensation producers.

The Tigers got but six hits out of
the infield, three runs going to right
and three to left field. You cannot
find anything sensational in this line
of business.

Johnny Kane had but one chance
and missed the ball. Burger hit a
short fly back of short in the third
inning and, after reaching out, hit
that Litch could not get. Kane
Kane started for it and, limping along
at top speed for 100 feet as fast as
he could, he missed the ball at the end
of his run.

Any time this bird muffs a fly ball
you should write it down and take it
from me, you will not need more than
a cigarette paper to last you all
season. Johnny has a bad leg and
any ball player under such a handicap.

(Continued on Second Page.)

Pasadenan Would Take Place on Superior Bench.

Would Banish Poles From the Downtown Streets.

Council Will Regulate Rates Charged for Power.

Office of the Times, 21 S. Fair Oaks avenue.

PASADENA, July 10.—Friends of Police Judge Robert W. McDonald within a few days will have out petitions for his nomination on the primary tickets next fall for election to the Superior Court bench. They have been active for several days in the matter and declared yesterday that Judge McDonald's chances for election to the office are very favorable.

Under the new law the candidates for the judicial office this year will be non-partisan candidates. Judge McDonald, however, is a Republican and has a wide circle of friends in Pasadena and other parts of the county.

He has been a resident of the city for fifteen years and has held the two offices he now occupies. Justice of the peace and police magistrate, for over six years. He was twice elected to the office of justice of the peace and at the second time polled a larger number of votes than any other candidate here has ever received. For one year he was City Attorney for Pasadena.

There are to be five vacancies in the Superior Court at the coming election. Four of the judges now sitting in these divisions are candidates for re-election. Judge Walter Bordwell has announced his intention to resign. Former Judge George R. Davis of this city is being urged by his friends also to enter the contest. Following the announcement yesterday that Judge Bordwell will not be a candidate for re-election, he declared that he would announce within a few days whether he will enter the race.

TO ABANDON POLES.
The City Council System Commission, composed of J. D. Mercereau, C. W. Kolner and City Engineer Van Ordnum, made its first annual report to the City Council last night. It recommended that telephone and electric light wire poles be taken out of the business part of the city. A conduit was recently constructed along Orange Grove boulevard and they ask that this system be extended throughout the city.

Accompanying the report were estimates on the cost of extending the system throughout a district east on Colorado street to Los Robles avenue south to Vinland street, and north to Holly street. The total figures are \$17,782.61. Furthermore, the commission declares that the system of conduits, if constructed, should be owned and controlled by the city.

The report will be given further consideration by the Council.

TO GOVERN RATES.
With the introduction of a new ordinance at yesterday's session of the City Council the first step was taken in a plan to regulate the rates of companies supplying electric power for other than lighting purposes. The schedule of maximum rates will be about the same as the schedule of the maximum rates in effect in Los Angeles.

A general clamor was raised yesterday by residents within the district recently formed for the construction of the new Broadway-storm drain. Notices had been sent to property owners that their assessments are due not later than the 29th inst., and that they must be paid in Los Angeles.

A protest to the proceeding was made to the City Council and a committee composed of Councilmen Ford and Barnes was appointed to take the matter up with the contractors and seek an extension of time, if possible, and endeavor to induce the contractors to establish an office in Pasadena so that the assessments may be paid in the city. The members of the committee stated last night that some more satisfactory arrangements are not made, it will not be because they have not done all within their power.

The Council enacted the ordinance granting the bond issue for the purchase of the water plants of the city that was determined on at the recent election.

The thirty-year franchise for the maintenance of an electric car line on Lincoln avenue that had previously been decided upon was granted.

The Council voted to abandon proceedings to establish a wig-wag alarm at the Fair Oaks avenue crossing of the Salt Lake line. Instead, an ordinance requiring all trains to slacken speed to six miles an hour will be passed.

NEW TEACHERS NAMED.
Although the Board of Education has not determined who will succeed Miss D. Ely as principal of the Pasadena High school, the following new members of the faculty have been appointed:

Miss Margaret S. Carhart, Miss Edith M. Wolfe, Miss A. C. Marcial, Miss Myrtle Johnson, Miss Margaret Corwin, Miss Katherine Kenaga, Robert T. Black and W. R. Kimbrell. New teachers for the grammar schools are: Miss Anita McLaughlin, Miss Mildred Jones, Miss Winifred Millspaugh, Miss Clara Hartshorn, Miss Dorothy Gird, Miss Elsie Russell, Miss Julia Melton, Miss Elizabeth Holcomb, Miss Cella Johnson, Miss Sadie Danner, Miss Elizabeth Porter Hillman, Miss Margaret MacDuff and Leo H. Holmes.

NOTED CLUB WOMAN COMES.
Mrs. Percy V. Penningbacker of Austin, Tex., the new president of the General Federation of Women's Clubs, arrived in Pasadena yesterday from San Francisco, with Mrs. Clara Bryant, Hayward of No. 161 Galena avenue, with whom she will visit until tomorrow night, when she leaves for her home.

Today she will be the guest of honor at a reception at Mrs. Heywood's home, and she will probably attend a banquet of the Municipal League in Los Angeles.

She declined to grant an interview.

last night, as she was fatigued by the journey.

CITY BRIEFS.
Work has been begun on the new athletic field of Occidental College that is to cost \$3000, and be one of the best fields in the State.

The New Century Club of Pasadena will give a picnic at Sycamore Grove next Saturday. Baseball game will be the chief event of the day.

Wadsworth sells paints.
Hotel Vista del Arroyo, Pasadena.

HOME BUYS THE SUNSET.
The Sunset company will continue its long distance business here and has leased from the Home company quarters in the Home company's building on Main street and will install an entirely new switchboard, an old one being used temporarily.

This brings the Home long distance office and the Sunset long distance office in the same building, the Home being on the south and the Sunset on the north side of the room.

The arrangement will be much more convenient for the Pomona public. At the meeting this morning, United States Attorney Mott represented the Sunset company; Messrs. Pittier, Parson and Dele the Home company; Attorney J. W. Jones the city. Commissioner Edgerton was accompanied by Chief Engineer Shaw, who advised with the commission in matters of this kind.

The application will be submitted by the commissioner to the State Railroad Commission and the order making the proposition legal will soon be ratified by the commission.

GENEROUS GIFT.
The largest donation to missionary work ever given by one person in this city was the gift of \$10,000 of G. H. Waters of the First Christian Church to be used at the discretion of the Christian Board of Missions.

The gift is announced following the visit of a team of missionaries which has just been here and the members of which are John A. Powell, United States endeavoring to raise a million dollars to carry on missionary work in China, Japan, India, the Philippines, Cuba and Africa.

Mr. Powell is proprietor of the Pomona Cannery and states that he hopes he will live to make and give \$100,000 to missions. No restrictions are placed on the gift and it can be expended by the board where it is felt that it will do the greatest good.

NEWS BRIEFS.
The Pomona Cannery has opened for the season and about 150 workers are employed there. Although the cannery handled about 800 tons of apricots last year, the figures for this year will not exceed 500 tons.

The young women of the Junior Republic League, who are hard at work arranging for the country fair to be given at Ganesha Park on Thursday afternoon and evening, are arranging some original surprises for the patrons of the affair. The funds raised will be given to the George Junior Republic.

For results, go to Arrowhead Springs. Summer rates. Enjoy life at Coronado Beach.

Santa Monica.

AGITATION IS A HARD ON CREDIT.

SANTA MONICA WATER MAN PRESENTS HIS VIEWS.

Effort to Annex Beach Town to Los Angeles to Secure Owens River Water Has Tendency to Make Water Bonds Slow in Market—New Councilman a Booster.

SANTA MONICA, July 9.—Agitation in Santa Monica in favor of annexation to Los Angeles and the purchase of a portion of the flow of the Owens River aqueduct is given as the cause of the water troubles of the East and South sides. At least this was the gist of a remarkable statement by the manager of the Irwin Heights Water Company after residents of the city had stormed the Council Chamber last night and demanded that they be served with a sufficient quantity of the life giving fluid. C. C. Cowner, the head of the water company, stated that he could not get money enough for new excavations or repairs because investors were afraid that the concern would soon compete with the flow of the aqueduct.

The first steps towards municipal ownership of water systems now being taken in this city were taken, after a warm discussion, when a committee, consisting of Councilmen Bailey, Fausgood and Little was appointed to look over the Irwin Heights Water Company property with a competent engineer, and appraise it with a view to acquiring it by a bond issue.

Councilman Bailey declared during the time the water question was being debated that he was in favor of municipal ownership on Fourteenth and Thirteenth street could not get enough water to drink.

NEW COUNCILMAN.
At the outset of the meeting, C. C. Ehrenhart, who resides at No. 1201 Lake street, was sworn in as temporary Councilman, filling the chair which D. W. Baker was forced to vacate. It is a coincidence that Ehrenhart is a butcher, as was Baker, and once worked in a meat market which had been owned by Baker's predecessor. Ehrenhart took part in a part in the proceedings last night, his voice being heard only on roll call. He has been a resident of Santa Monica six years.

Would you know the joy of living? Go to Arrowhead. Summer rates.

Long Beach. ANOTHER BOND ISSUE PLANNED.

Long Beach Contemplates Enlargement of Dock.

Growth in Volume of Shipping Taxes Facilities.

Aged Woman Meets Death Under Wheels of Car.

Office of the Times, 21 S. Fair Oaks avenue.

LONG BEACH, July 9.—Long Beach is planning another bond issue, this time for \$100,000 to be used in the enlargement and improvement of the municipal docks. In the year they have been in operation, have grown too small for the volume of business transacted. The city engineer has furnished the Council an estimate that to construct additional wharves on the harbor frontage owned by the city, pave two 30-foot roadways, construct a frame and concrete storage warehouse and equip 1400 feet of railway track to connect the municipal railway with the Salt Lake, will cost \$14,368.

MAN DISAPPEARS.
Mrs. R. A. Reiser, living at No. 127 Chestnut street, today reported to the police the disappearance of her husband, R. A. Reiser, who left home yesterday morning and has dropped from sight. Reiser is suffering from partial blindness and suffering intensely with his affliction, his wife thinks he has wandered away or met with some accident. Reiser is of medium build, dark complexion and when he left home had on a dark brown suit and hat. He is about 43 years of age. So far as known, he had very little money and inquired at the bank shows he had not drawn on his account.

CONFETTI TABOO.
Stirred to action last night by vigorous protests of merchants, who told of the abuses due to the throwing of confetti and the use of whips and rattles on the night of the Fourth of July, the City Council last night ordered the City Attorney to prepare an ordinance prohibiting in future the sale or throwing of confetti and the use of whips and rattles, and providing a penalty for its violation. It is a question whether the city should prohibit in soda drinks will next be prohibited in Long Beach.

ANNUAL CONVENTION.
The twenty-fourth annual convention of the Christian churches of Southern California will meet here July 24, and continue in session two weeks. Last year there was an average attendance of 2400, which will be considerably increased this year. Prominent speakers from home and abroad will be on the programme.

ANOTHER ADDITION.
Assistant Surgeon W. A. Deerbake, transferred from Central Branch at Dayton, to fill vacancy due to resignation of Dr. Shipper, has arrived. He is a native of Wisconsin and single. He is, however, delighted at the opportunity to come to Southern California. Later he will be joined by his mother, Mrs. Bertha Hague, who, with a younger sister, Miss Bertha, will constitute this family in the pretty bungalow officially known as "Admiral's Headquarters."

Nanking, China; Grant K. Lewis, secretary of the Home Missions Society; D. R. Dungan of Des Moines, Iowa; John H. Booth, field secretary of the board of church extension, and several local pastors of Southern California cities.

WILLOWS RENAMED.
Because there is a town called Willows in California and shipments of freight have been mislabeled, the Pacific Electric has changed the name of the Long Beach northern suburb and cars are now lettered "Willowvale."

WOMAN KILLED.
Mrs. Julia Lender of Los Angeles was struck by a Redondo-avenue electric car yesterday at the corner of Colorado and Redondo avenues and instantly killed.

Mrs. Lender, who was 63 years of age, came here two weeks ago. She is a vendor of religious papers and religious songs of her own composition, and has been making a house-to-house canvass in various parts of the city, and when picked up still had clasped under her arm a large bundle of papers.

REOATTA PLAN.
Secretary Blaby of the Chamber of Commerce is at work interesting the yacht club of the Pacific Coast in a four day regatta at Long Beach, beginning August 1. Invitations have been issued to all motor boat and yacht clubs to participate, and a special effort will be made to get the San Francisco club to come. The races will be held off shore in front of Hotel Virginia.

NEWS BRIEFS.
President F. A. Knight of the City Club believes that all members of any organization should be identified with its activities and in making out his committee has included each of the 160 members on some one of the committees. Chairman selected are as follows: Public Utilities, A. C. Malone; Information, George B. Early; Legislation, F. H. Downer; Commerce, J. C. Farham; Public Health, Dr. R. B. Sweet; Public Improvements, S. J. Abrams; Weights and Measures, C. A. Akers; Public Morals, H. H. McCutchen.

NEW ADJUTANT ARRIVES.
Captain Hague assumes duties at Soldiers' Home this morning. Death Day Depleting the Ranks. SOLDIERS' HOME, July 9.—Capt. F. T. Hague, the newly-appointed adjutant and inspector of the Pacific Branch arrived at the home today, and will enter upon his official duties tomorrow morning.

Capt. Hague, who comes direct from the Western Branch at Leavenworth, is thoroughly qualified for his new office through eight years experience of departmental service for the United States government. He is a native of Wisconsin and single.

He is, however, delighted at the opportunity to come to Southern California. Later he will be joined by his mother, Mrs. Bertha Hague, who, with a younger sister, Miss Bertha, will constitute this family in the pretty bungalow officially known as "Admiral's Headquarters."

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

AUDITORS TO SCAN THE BOOKS.

Riverside County Tax Collector Has Affairs Mixed.

Town Excited Because He Went to San Francisco.

Council and Water Companies Disagree.

RIVERSIDE, July 9.—Rumors of a most sensational character have been in circulation here today concerning the affairs of County Tax Collector E. D. Crane, who left here last Friday, for San Francisco.

The fact that the Tax Collector had left on July 1, to make his monthly report and turn over to the County Auditor the amounts of money collected by his office during the month of June has been the cause of much speculation. It was said here today that a hurried examination by Auditor Brown disclosed a discrepancy in the Tax Collector's books of something like \$12,000 to \$14,000.

An investigation disclosed the fact that Crane had left for San Francisco July 5 and that he was returning via Los Angeles. Chairman Karl S. Carlson of the Board of County Supervisors went to Los Angeles and accompanied Crane to this city.

Since arriving, he has been in consultation with his attorney, Lafayette Gill, and representatives of a bonding company, bondsmen and others.

It has been stated that the apparent shortage on the books of the collector is due to clerical errors and that all may be straightened out.

The last grand jury dealt in plain language with the methods employed, charging apparent incompetence, although the report closed with the statement that the county had not lost anything through these mistakes and expressed the hope that better service might be given in the future.

CANNOT AGREE.

Although there was rejoicing several weeks ago, when it was believed the vexatious question of the city acquiring the domestic system of the Riverside Water Company, had been settled by the water company and the Council agreeing to a tentative agreement for the purchase of the system for \$175,000, it was demonstrated before the Council today that the city and company are yet at variance in regard to the proposed contract. When the rough form of contract was at first drawn up and the committee on the Council and that of the company signed it, the terms were submitted to Houghton & Houghton, the San Francisco attorneys of the water company, and also to City Attorney Irving, that each might go over the contract and draw up in legal language a contract containing the substance of the other one. The result is that two widely differing contracts were submitted by the attorneys of the two sides to the proposed deal. All day the Council and the water committee wrangled, each trying to induce the other to agree to his contract, but there is a wide gap to prohibit.

TO PROHIBIT FIGHTING.

Petitions to initiate legislation prohibiting prize fighting in the State and prescribing strict Sunday observance were started in circulation here today under the auspices of the Riverside County Church Federation. Similar petitions will be circulated in all the counties of the State.

GAIN OVER TWO MILLION.

San Bernardino County Total Assessment Almost Reaches the Forty Million Dollar Mark—Short News.

SAN BERNARDINO, July 9.—The total assessment for San Bernardino, as made by County Assessor Meserve, amounts to \$33,969,470, as against \$32,969,719, the assessment last year, or a gain of \$1,000,000. The assessment this year was based upon 12.1 per cent. of the actual value. Last year the basis was 40 per cent. The increase of over \$2,000,000 is attributable to a more thorough assessment, as well as a more equal one.

Assessor Meserve, and his chief deputy, Frank Meserve, started out with the determination of making a more equal assessment as possible, not only on the city but also on the property in the orange groves as well. The gain is seen in every town and every community. The Board of Equalization is now meeting. After they complete their work the books go to the auditor's office, the Supervisors fix the tax in September, and the auditor will then figure the taxes.

NOTE TO RESCIND.

The Board of Supervisors last night voted to rescind action on the ordinance fixing the gas rate. They voted down the proposal for a rate of \$1.05 per cubic foot, and agreed to send their expert to the Colton plant, to make a new set of figures based on that plant. The old plant here, which has been abandoned, was based upon a non-suit. It is believed that they would be knocked out of court on a non-suit if they attempted to fix a rate based upon the earnings of the old plant. Councilman W. E. Irving and Councilman Chambers alone voted for the \$1.05 rate. The session was attended by a large number of citizens, who urged the rescinding of the ordinance.

NOTE CASE BEGINS.

The suit of Mrs. Deitz against Lela Eler as administrator of the Fred Eler estate, to force payment of a promissory note for \$20,000, given by Eler at San Francisco, commenced today before Judge Oster and a jury. Attorney A. E. Meserve of Los Angeles and Attorney C. L. Allison of this city represent Mrs. Deitz, while Attorney Eler is represented by Attorney Deitz. The first witnesses called this afternoon were W. S. Hooper, National Bank, and W. S. Boggs of the California State Bank, both of whom identified the signature of the deceased Eler, together with the general script in which the note is written.

OFFICER SHOT; TOWN ENRAGED.

City Marshal of Anaheim Wounded by Mexican.

Threats of Lynching Were Openly Made on Street.

Popular Official Will Probably Die From Injuries.

ANY DIRECT WIRE TO THE TIMES: ANAHEIM, July 9.—[Exclusive Dispatch.] With two bullet holes through his right lung, John Kallenberger, City Marshal of Anaheim, lies in the Anaheim Sanatorium possibly fatally wounded by bullets fired at him by a Mexican named Limon Alimendares. Alimendares made his escape from Anaheim on a stolen bicycle, but after a three-hour search, joined in by scores of officers and citizens, he was caught at Buena Park by Kallenberger's chief deputy, Philip German and Undersheriff Robert Squires of Santa Ana.

Not in years has Anaheim been more thoroughly aroused than by the attempt to kill Kallenberger, a popular and efficient officer. Talk of lynching took actual form when ropes were paraded on the sidewalk. When Alimendares was brought into Anaheim at noon, the cry went out that he was to be locked in the City Jail. In three minutes there were 200 people packed in front of the jail.

Squires and German, with their prisoner came around a corner and saw the jam of indignant people and machine guns. Squires turned his machine loose and headed for Santa Ana, where the Mexican was locked up. One man bought a coil of rope at a store and offered to lead a lynching gang. Another bunch of men ran down the sidewalk, one of the crowd with a rope ready to lynch the Mexican, were he left in Anaheim.

Sheriff Radebeck does not believe that any move would have been made to take the man from the officers had they stopped at Anaheim, though there were plenty of threats from hotheads.

Coronado Tent City has no equal.

CABBAGE CROP FALLS SHORT.

Fullerton Growers Ship Two Hundred and Seventy-five Cars Against Four Hundred Last Season.

FULLERTON, July 9.—The cabbage season for this section has closed, the total output having been far below that of last year, although the prices have been much better, netting the growers better profits.

During the season now closed the output from the local district has been about 275 carloads. The market opened at \$15 a ton and averaged through the season \$20 a ton. The cabbage was of the highest quality.

The crop was purchased and shipped by the Pacific Company, M. Cobb, Fred Lampburn, Duncan Campbell, the Berry Association and by the California Vegetable Union, the last concern having moved over 100 carloads. Last year the output was nearly 400 cars, and the average price from \$14 to \$15 a ton.

TO BUY A FARM.

Negotiations are under way for the purchase by the city of the forty-acre Cookman ranch, west of Fullerton, for a sewer farm. The price asked is \$15,000 and thirty-five acres are under cultivation. The City Trustees have passed a resolution to the effect that the city will be paid from the north to the south city limits. This will be a part of the State road. The reform element scored at the meeting Monday night with a petition signed by 400 citizens, as a result of which all picture shows will be closed on Sunday hereafter.

Fullerton made the past year the biggest increase in assessed values of property of any city in Orange county. The total value of all property, according to official figures this year, is \$2,665,657, a gain over nearly a million dollars over 1911.

WOMAN LEAPS TO DEATH.

Former Resident of San Bernardino Jumps from Window of Daughter's Home at San Francisco.

SAN FRANCISCO, July 9.—Mrs. B. L. Briggs of San Bernardino, 65 years of age, leaped from a second-story window at the home of her daughter, Mrs. J. Raymond Smith, here today, and was instantly killed.

Mrs. Briggs had been under the care of a physician for several weeks, having showed signs of mental weakness. When she feigned sleep early today the physician in attendance left the room for a moment and she leaped from the window.

Mrs. Briggs recently came from San Bernardino to visit her daughter.

GRAPE DAY CAMPAIGN IS ON.

Escondido Is Preparing for its Fifth Annual Celebration—Tons of Muscatels for Public.

ESCONDIDO, July 9.—A sixty-day campaign in the interests of Grape Day, September 5, was inaugurated last evening by the Grape Day Association as represented by its board of directors, which organized the following: President, W. E. Alexander; vice-president, W. H. Baldrige; secretary, J. H. Heath; assistant secretary, W. V. Wright; treasurer, Harold Thomas. The directors for the 1912 festival consists of the following: W. E. Alexander, Dr. J. V. Larzere, W. L. Bamer, H. W. Beers, A. T. Robertson, G. V. Wadsworth, W. H. Baldrige, Sig Steiner and J. H. Heath. Mr. Beers and Mr. Robertson are the new members, succeeding J. W. Hedger and Dr. Edgar S. Buell, resigned.

Other than organization the meeting of last evening was devoted to a general discussion of plans for the fifth annual festival, which, it is hoped will be a more notable event than any preceding it. The president was asked to appoint committees looking into the permanent organization and incorporation of the association and for the purchase of grounds and the erection of buildings. It is proposed that the celebration shall be along the same lines as the four previous ones, with the exception of the erection of buildings, which have passed into history. Tons of muscatels will be given away at the grounds during the day, precut and baskets filled with them will be handed out to the guests as they leave for their homes. Arrangements will also be made for a general discussion of plans for the fifth annual festival, which, it is hoped will be a more notable event than any preceding it.

APRICOT HARVEST.

The harvest of the apricot crop at the Marchus and Jeorgenson orchards in the San Pasqual Valley has commenced, although the picking thus far is in the green state, for the market in San Diego. The growers have been offered 5 cents per pound for the dried fruit, but are hoping for more. The season is about two weeks late, on account of the cool weather.

John Kallenberger, City Marshal of Anaheim, who was fatally shot yesterday by a Mexican.

SUBSTANTIAL INCREASE.

Redlands Taxable Wealth Is Much Greater Than Last Year—Will Vigorously Fight Damage Suit.

REDLANDS, July 9.—County Assessor F. P. Meserve has prepared a statement showing that the total assessment of Redlands city is \$4,455,200, and the total assessment of the Redlands school district is \$7,492,580. This shows a substantial increase for Redlands, despite the fact that some \$800,000 of solvent credits turned in by the Myers estate a year ago were not available for assessment this year.

NEW STYLE CORN.

PORTERVILLE, July 9.—F. A. Doty, who Porterville amateur horticulturalist, who has achieved national fame by the breeding of seedless blackberries and seedless tomatoes, has another new creation which he is exhibiting with some pride, and which is a new variety of corn, bearing the usual quips of ears on the stalk, and topped with the full developed head of Egyptian corn.

GOING! GOING!! GONE!!!

HERPIDE WILL SAVE IT HERPIDE WILL SAVE IT TOO LATE FOR HERPIDE

IS YOUR HAIR SLIPPING?

The presence of dandruff and falling hair conveys a message which it is best to heed. At first the loss of hair may be so slight as to be hardly noticeable. But no matter how slight the loss, the hair is being carried away by the same and inevitable result, and that is total baldness.

You may have hair enough today, but how about tomorrow and the day after? Dandruff and falling hair mean baldness sooner or later and demand the immediate remedy and sure cure of Newbros Herpide. This is the original remedy that kills the dandruff germ, prevents the hair from falling out. It keeps the scalp free from dirt and dandruff and allows the hair to grow and naturally fall out. By this means and this means alone can total baldness be prevented.

PRINTING, BOOKLETS & PUBLICITY LITERATURE

Service and Quality have given us the reputation of being "Good Printers." They are the corner stones upon which this business has been built. We demand them in our Representatives, Composers, Pressmen, Binders—in fact every separate unit of this establishment must qualify in these cardinal features. Service at the expense of Quality, or Quality without Service cannot hope for success.

Service and Quality Printing costs no more than the ordinary kind—costs less when its value as a business investment is considered. Cards, Stationery, Pamphlets, Circulars, Folders, Announcements, Booklets or Catalogs command more attention when faultlessly executed.

Another evidence of our Service and Quality features is our Publicity Department. An experienced and capable Advertising Man is at your service for the development of ideas and suggestions in connection with your Advertising Literature.

Place your next order with us and let us demonstrate the value to you of Service and Quality in Printing.

Your Opportunity This Week! Don't Let it Slip!

It's your opportunity to accept Dr. Shores' great special free offer FOR THIS WEEK ONLY of a thorough medical examination and expert advice free to demonstrate their skill as chronic disease specialists, and to further improve upon the most afflicted the greatest importance of taking advantage of this, the most favorable season of the year to get quick and lasting relief.

A Thorough Free Medical Examination

All who suffer with Deafness, Catarrh, Hay Fever or any Chronic or Nervous Disease are invited. Dr. Shores will give the MOST and WEAK spots, and will tell you FREE what the CAUSE of your ailment REALLY IS, and HOW you can be cured and what it will cost. This is a rare opportunity for the sick and afflicted to get an expert opinion of their case free. Don't miss it, and please come especially invited. Come today, come any day this week. Stop Experimenting!

We Treat All Chronic Diseases

Dr. Shores not only treats Catarrh, but also treats Nervous Diseases, Hay Fever, Deafness, Catarrh, Kidney and Liver Diseases, Bladder Trouble, Heart Disease, Rheumatism, Gout, Spinal Trouble, Skin Diseases, Asthma, Chronic Bronchitis and Lung Trouble, Consumption, Stomach, Rheumatism, Hay Fever, Neuritis, Hysteria, Deafness, Ear Diseases, Cough, La Grippe, Blood Troubles, etc., and all forms of Nervous and Chronic Diseases that are curable.

PROMINENT SYMPTOMS OF CATARRH

THE HEAD AND THROAT
Is there pain in front of the head?
Is there pain in the throat?
Is your nose stopped up?
Does your nose discharge?
Is your throat dry in the morning?
Do you sleep with your mouth open?
You can be easily cured now! Don't let it run into chronic form!

OF THE STOMACH
Catarrh of the stomach is usually caused by swallowing potent mucus which drops down from the head and throat at night.
Are you constipated?
Is there acidity?
Do you belch up gas?
Do you bleed up after eating?
Is your stomach flat?
Now is the time to be permanently cured. Dr. Shores is curing hundreds every year.

WOMEN
Weak, tired out, sickly women, suffering from the ill effects of the sex, find Dr. Shores' treatment prompt and wonderful in results. Call or write. REMEMBER! Right now is the favorable season for the quick cure of Catarrh and Chronic Diseases. Get busy and get well.

Many patients can be treated at home. Write for full explanation, booklet, etc. Dr. Shores has cured as much as a century's disease in a few days. Write for full explanation, booklet, etc.
